

**Industry's First
Mini-LED Touchscreen
with Android 15**

Get Started with Touchscreen Titan

Screen Navigation

Swipe up from bottom edge to go to **Home screen**

Swipe up and hold from bottom edge to show **Recent Apps**

Swipe inwards from side edges to go **Back**

Anywhere on the Screen **Write / Annotate**

The back end serves as an eraser.

The stylus's lead tip works as a pen.

Use your finger to navigate between different apps.

Your palm acts as an eraser, allowing you to clear annotations seamlessly.

You can annotate over any app or screen. Save your annotation in Files or export to Whiteboard / Write app.

Writing Tips for the **Whiteboard / Write App**

The back end serves as a broad-point pen for thicker strokes.

The stylus's lead tip operates as a fine-point pen.

In Write, finger is used for selecting and interacting with elements.

Your palm acts as an eraser, allowing you to clear annotations seamlessly.

Use pre-loaded tables, templates, shapes, and media. Export lesson content as PDFs or email it directly to students.

Preinstalled Apps

Access YouTube, Chrome, Google Docs, and more. Swipe up or use the toolbar to browse preinstalled apps or download others apps from Google Play.

AI-based Quizzes and Polls

QuizWiz delivers editable, real-time polls and quizzes in seconds using your trusted content. Integrated with Google Drive and Google Forms. Save and share results.

App Pairing

Streamline multitasking workflows and reduce setup time for split-screen combinations. Browse a webpage while taking notes, watch a video while using Write, or make your own combinations.

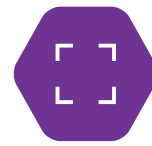

Wired Connections

Connect your computer with HDMI and USB touch cables or use the front Type-C in port with a USB-C cable if your laptop has a USB-C port.

AI Bot

Your always-available assistant, accessible over any app. Get instant help with product features, lesson planning, and educational K-12 content, and insert it directly into Write or turn it into a quiz with QuizWiz.

Smart Select

Circle any on-screen content to instantly search, copy, translate, or ask AI. Perfect for live lessons and collaborative sessions.

The GURU App

Free, live help & training for any OneScreen product from your laptop or phone

Additional Documents
